How to use your WellifyMe benefit card?

Your WellifyME benefit card works just like a credit/debit card.

Virtual: Provide your card details sent to you via email to the dental office and they process it to collect their payment. If there is any balance owed after your benefit dollars are used, please pay the dental office directly in any way you wish.

Physical: Provide your physical card to the dental office and they process it as they would any other credit card payment. If there is any balance owed after your benefit dollars are used, please pay the dental office directly in any way you wish.
